Data based on most recent known address as of 2016
This table presents HIV Infection cases using the year the person was first diagnosed
The term HIV Infection is used to refer to three categories of diagnoses collectively:

1 - persons with a diagnosis of HIV infection (not AIDS)

2 - a diagnosis of HIV infection and a later diagnosis of AIDS

3 - concurrent diagnoses of HIV and AIDS

Data supplied from HIV Surveillance for cases reported through 2017
